## Program

[preliminary program](#) as of Febr 2, 2018

The forum will feature presentations and discussions in a mountain venue that should foster exchange, creativity, and the development of new ideas for innovative and interdisciplinary research.

On Friday, the Forum will focus on a selected theme to be determined, interacting with actors and experts in the field ('science meets reality'). It will follow the very successful focus sessions of previous Forums on 'science meets industry' (2008), on 'science meets the world of regulations' (2009), on 'transparency in food' (2010), on 'scenario dynamics' (2011), on 'corporate social responsibility' (2012), on 'urban agriculture, logistics and PPP' (2013), on 'sustainability issues, water, crowdfunding and social media' (2014), on 'water as a scarce resource' (2015), on the 'future of food' (2016), and on 'Online Retail' (2017).

Participants meet in morning and evening sessions, covering a full working day. Afternoons are free for individual and group meetings for reflection, discussions, networking, and relaxation while skiing, walking, enjoying mountain restaurants or discovering the medieval roots of Innsbruck and the Inn valley.

## General Program Structure
